Steven Baughn was an extraordinary help to my husband and I in determining one of the most important decisions in our life: where we are going to work and live next. Steven is intelligent, diligent and thorough, and his base of knowledge and his care for the hiring party and for us was extremely helpful for use in determining our decision. Steven made himself available at all times and was very effective in his communication with us. I would recommend Steven's services to anyone who is looking for someone communicative, thorough and smart. Thanks Steven!

Sincerely,
