Steven Baughn
nextGEN Group
Executive Director, Physician Services

Dear Steve;

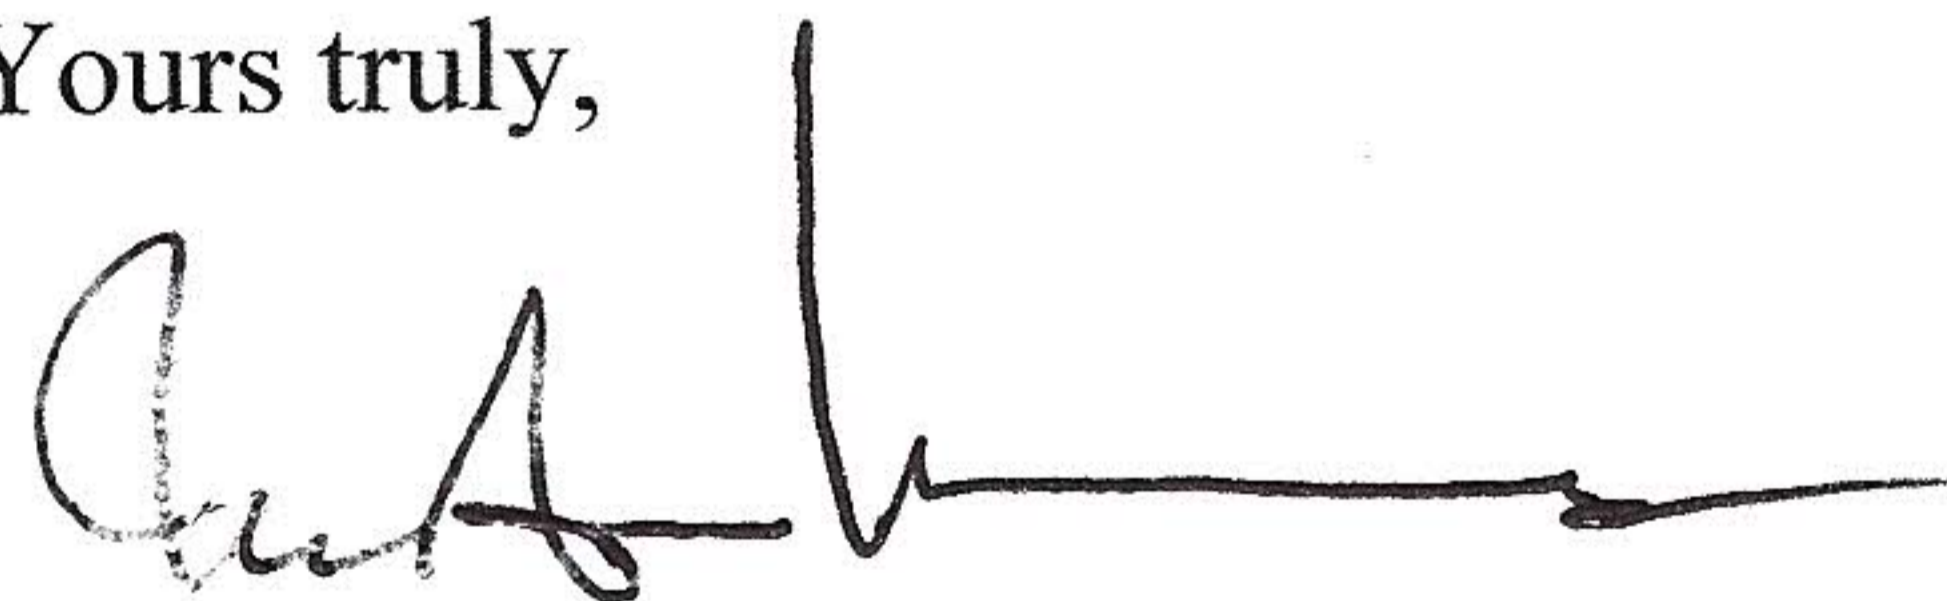

I would like to take this opportunity to thank you for a job very well done. The process of evaluating physician job opportunities is an arduous task to say the very least. During the time of exploring different opportunities it was disappointing to find so many individuals that represented themselves as professional physician placement experts that had no sense of simple courtesies.

The introduction of yourself and services, to the signing of the contract for my new position as Medical Director for a Hyperbaric Center was managed professionally. The steps that you outlined made the entire process seamless. Your attention to detail left no ambiguity and it has been a pleasure to work with you during the entire process. I was also impressed that once your "work was done" you followed up with me to see how things were progressing.

It is without reservation that I will recommend you and nextGEN Group for physician placement opportunities.

I wish you health, happiness and prosperity in this New Year.

Yours truly,

Ivan A. Hernandez MD FACS CWS FCCWS
Medical Director
